Crows Nest Pass Musical Festival Arousing Keen Interest in S. W. Alberta and B. C. Towns

All Towns from Cranbrook East to Lethbridge Will Send Competitors to Ninth Annual.

J. E. Upton, chairman of the finance committee of Crows Nest Pass Musical Festival, has been making a tour of the Pass towns during the week, arousing interest in this annual event, which is looked forward to by a large number of music lovers and their friends.

Already 30 entries have been received from Cranbrook, and from Kimberley and Pincher Creek there is also a good list. The final night of the Festival, Sat., Oct. 28, will be set apart for a grand concert in which various orchestras and competitors will take part, and this is always a big night, with standing room only in the big auditorium.

Mr. Upton recently addressed a meeting of the service clubs in Cranbrook, who have promised their support to the Cranbrook entrants. Mr. Raven will bring his orchestra, and orchestras from Coleman, under Miss Powell, and Hillcrest, under W. H. Moser, and Blairmore, under J. E. Upton, will be featured in the programme each day.

The adjudicator, Mr. Burton L. Kurth, is an experienced and versatile musician.

He is a native of Buffalo and came to Canada at an early age, studying at the University of Manitoba, and in 1909 was appointed to an organist and choirmaster's position in Winnipeg. He was for many years in charge of

the music of Young United Church, and during that period has been steadily active in the musical life of Winipeg, holding many executive positions in the various musical societies, and acting as conductor of several choral organizations, among them the Cecile Ladier's Choir, Women's Musical Club Chorus, Selkirk Choral Society, St. John's High School Graduates' Choir. In 1929 he went to Vancouver to take the position as organist at Chown United Church. He has specialized in vocal and choral training, studying under the foremost vocal teachers. To the competitive musical festival movement he has given liberally of his time and experience, acting on the committee of the Manitoba festival for several years, and as adjudicator at many festivals, amongst them: Grand Forks, North Dakota, 1927-28; Crookston, Minnesota, 1927; Carmen, Man., 1928; Western Manitoba, Kenton, 1928; Hamiota, Man., 1929; Brandon, Man., 1929; Upper Island (Nanaimo) Welsh Festival, Vancouver; Edmonton; Alberta; Cranbrook, B.C., 1932.

Owing to the inability of Mr. Frank Smith, through illness, to carry on his usual duties as secretary this year, Mrs. J. H. Farmer of Blairmore is acting as secretary of the festival. Much of the success of the smooth running of the festival has been due to the methodical supervision of Mr. Smith, who has been secretary for many years. The festival was inaugurated by the Rev. Mr. Young, formerly of Blairmore, now living in California.

UNITED CHURCH NOTES

Sunday, October 1, marks the beginning of the second year of Rev. Roy Taylor's ministry at St. Paul's United church. Just as the solution of the present world crisis depends on co-operation and friendliness among nations, a ministry can only be successful when every member, adherent and friend of the church, cognizes his or her responsibility and throws themselves whole-heartedly into the work of the Master's kingdom. Let this coming year be one in which each and every one will do their level best.

The junior choir will lead the singing in the morning and the minister will preach on the subject: "A Mountain of Prayer."

At the evening service the sermon-subject will be "What shall I do with Jesus which is called the Christ?" What bearing has Pilate's question on your life and mine? How are we answering it in our own experience? These will be the questions dealt with by the minister on Sunday evening.

Watch the posters announcing two plays to be put on shortly by the Ladies' Auxiliary of St. Paul's. New that Rally Day is over and past we are very anxious that all scholars and teachers resume their study together in the Sunday school. Any child who is not already attending will find a welcome Sunday morning at 12:15.

The senior choir will meet for practice Friday at 8 p.m. All who are fond of singing are given a hearty invitation. Come, we need you.

THE EVILS OF PRICE-CUTTERS

Chiselers and price-cutters are the enemies of decent wages and fair standards of living. The printing industry in common with others experiences this competition which results in "fatsoph" and bedroom print shops to undermine journeymen printers who demand and are entitled to union scale wages. Business men who believe in fair prices will deal with those who maintain a fair wage scale, thereby helping to promote their own business. Poorly paid employees have very little money to buy anything beyond the bare necessities to keep body and soul together. Remember this when you are induced to buy from price-cutters, who usually ignore quality and appeal for business on price alone.

ST. ALBAN'S CHURCH, COLEMAN

Next Sunday, the sixteenth after Trinity, the services will be: 11:15 a.m., morning prayer and address; 12:30 p.m., Sunday school.

John McDonald left on Monday for Mount Royal College, Calgary.

Notice of Meeting

Coleman Miners Association will hold a meeting on Sunday afternoon, Oct. 1, at 2 p.m. in the Knights of Pythias hall for important business, and a full attendance of members is urged.—William Chapman, Sec.

MRS. W. R. WILSON FUNERAL IN VANCOUVER

The funeral of Mrs. W. R. Wilson, wife of the president of the Crows Nest Pass Coal Co., was held in Vancouver on Friday. All members of the family were present, including Mr. Wilson, and five sons and two daughters: Ridgeway R., mining engineer of Victoria; Bishop A., of Pincher Creek; William of Great Falls, Mont., Hartley and Stafford of Fernie; Mrs. S. Smith of Toronto, and Mrs. R. McDougall of Vancouver. Decceased was 76 years of age, was married in 1877, and had lived in the United States, South Africa and Canada with her husband, who was engaged in various mining industries in those countries.

BOXING RESULTS

Duke Hyssop won a ten round match points on Coleman arena on Saturday last. Murdo Morrison, who a month previously won in five rounds on a technical knockout, was subjected to a heavy pounding in the last two rounds, but would not give in.

Angus Morrison was the victor over Johnny Campbell of Lethbridge in the six round semi-final, and in the special event Mickey Stewart was the victor over Jimmy Stannmore of Lethbridge.

The preliminary between White of Kimberley and Reece of Hillcrest was a non decision bout.

It was the best program of the season. Danny Lewis of Blairmore refereed the main bout and semi-final, and Mr. Piscelli of New York referred the other two events. G. R. Powell of Coleman and J. McDonald of Blairmore were timekeepers.

A contract has been signed between Angus Morrison of Kimberley and Mickey Stewart of Marysville to box a ten-round bout here on a date to be arranged.

ALBERTA NEWSPAPERMAN HONOURED

Chas. Clark, who founded the High River Times at High River, Alberta, many years ago, was this year elected to the presidency of the Canadian Weekly Newspaper Association, at the convention in Vancouver.

Mr. Arthur Reid and son Harold went to Akron, Ohio, recently, in response to an urgent message advising Mr. Reid of the serious illness of his brother living there. They spent two weeks there and returned on Sept. 20. On their return journey they made a brief visit to the Century of Progress Exposition, Chicago, but time did not permit of more than a visit to the electrical exhibit, in which they were particularly interested. By night the exhibition grounds were a blaze of light and color, and it was a great show, states Mr. Reid.

Mr. and Mrs. Sam Moore spent a holiday visiting relatives at Creston, including Mr. Moore's parents and his brother, formerly Major Jas. Moore, and Mrs. Moore.

Major-Gen. McNaughton, Ottawa, and Col. Spy, Ottawa, accompanied by Brig.-Gen. Matthews of Calgary, were recently at the airport camp on an inspection tour.

Margaret McDonald, Irene James and Lyman Borden left on Sunday for Edmonton, where they will commence studies at Alberta University. Margaret Allan also left to resume her studies.

The Merchants softball team played a team at the airport camp on Wednesday of last week, winning by a score of 7-3. B. M. Hall captained the Merchants team, and himself scored three or four runs, and Bill Ferby scored a couple.

Mr. Harmer of Blairmore is acting as representative of The Journal and the Blairmore Enterprise is securing new subscriptions for these papers. As a premium a very fine piece of chinaware is being given with each \$2.00 subscription, which has proved very popular among quite a number who have taken advantage of this offer.

MISCELLANEOUS

E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, was appointed to the position of vice-president of the Consolidated Mining and Smelting Company of Canada at a special meeting of the directors of that company recently.

The necessity of making a regular weekly inspection of the swings and playground equipment at the schools was emphasized this week. Two children were swinging when the seat broke away from the supporting chain and they were thrown to the ground, fortunately without injury other than scratches and a bad scare.

E. V. Steele, district agent for the Metropolitan Life Assurance Co., having qualified as a member of the company's Golden Star club, was one of a large party which met at Jasper Park Lodge early in the month, when representatives and officials of the company from various parts of Canada were present.

At the Grand Union howling alley a team composed of W. Roughhead, R. Penman, A. Anderson and W. Jenkins scored 549 points against a team composed of B. Rypien, Ed. Yago, Joe Yagos and Ed. Vhurla, who scored 440 points. The Scots are so "cheesy" over their victory that they are now open to accept any challenge.

An appeal from the decision of the court of revision of Coleman school board, by International Coal and Coke Co. Ltd., was heard before Judge A. M. MacDonald on Saturday last. The company had been assessed \$100,000 on its coke manufacturing ovens, and the appeal court decided that \$50,000 would be a fair amount. R. F. Barnes represented the company, and James Ford, secretary, represented the school board.

Mr. and Mrs. D. Davies and daughters, Megan and Levina, left on Sunday for their home at Robie, Alberta, after spending two weeks visiting Mr. and Mrs. Fred Cox. They also visited the Rockies on the Arrow Lakes during their holiday trip. Though Mrs. Davies has visited here since it was left for the north several years ago, it was Mr. Davies first visit in nine years. He was formerly mine superintendent at International Coal mine.

It was the best program of the season. Danny Lewis of Blairmore refereed the main bout and semi-final, and Mr. Piscelli of New York referred the other two events. G. R. Powell of Coleman and J. McDonald of Blairmore were timekeepers.

A contract has been signed between Angus Morrison of Kimberley and Mickey Stewart of Marysville to box a ten-round bout here on a date to be arranged.

The ability of train crews to adhere religiously to running over large stretches of track is always a cause for wonder to travellers. As a case in point, C.P.R. train No. 4 leaves Vancouver at 2:45 Saturday afternoon and arrives in Toronto at 6:45 Wednesday morning. Week in and week out, swinging across mountain, prairie and rock-bound curves, with seldom the deviation of a minute. The train has not failed to be on time, with the exception of three times in six months, which is very complimentary to its crew, and to the efficiency of the system.—Amherstburg (Ont.) Echo.

Mr. Arthur Reid and son Harold went to Akron, Ohio, recently, in response to an urgent message advising Mr. Reid of the serious illness of his brother living there. They spent two weeks there and returned on Sept. 20. On their return journey they made a brief visit to the Century of Progress Exposition, Chicago, but time did not permit of more than a visit to the electrical exhibit, in which they were particularly interested. By night the exhibition grounds were a blaze of light and color, and it was a great show, states Mr. Reid.

Mr. and Mrs. Sam Moore spent a holiday visiting relatives at Creston, including Mr. Moore's parents and his brother, formerly Major Jas. Moore, and Mrs. Moore.

Major-Gen. McNaughton, Ottawa, and Col. Spy, Ottawa, accompanied by Brig.-Gen. Matthews of Calgary, were recently at the airport camp on an inspection tour.

Margaret McDonald, Irene James and Lyman Borden left on Sunday for Edmonton, where they will commence studies at Alberta University. Margaret Allan also left to resume her studies.

The Merchants softball team played a team at the airport camp on Wednesday of last week, winning by a score of 7-3. B. M. Hall captained the Merchants team, and himself scored three or four runs, and Bill Ferby scored a couple.

MISCELLANEOUS

The number of wage-earners of all classes in Canada at the census of 1931 was 2,560,617 and they earned \$2,102,777,400 during the two months prior to the census, according to the Dominion Bureau of Statistics. There were 1,948,500 males whose earnings were \$1,602,500 and 528,538 females. The balance which did not report earnings was \$88,967. The average yearly earnings of all ages was \$927 for males and \$460 for females. Among selected occupations the highest average earnings by males were locomotive engineers \$2,018; railway conductors \$1,136; school teachers \$1,073; telephone operators \$1,053; composers and printers \$1,450; street car conductors and motormen \$1,325; locomotive firemen \$1,297; bookkeepers, cashiers, etc., \$1,232; electricians and wiremen \$1,222; and stationery engineers \$1,183.

Rumors of the little Denholm boy being injured in a runaway team of horses owned by Harry Antel proved groundless. The team broke away when pulling a wagon from a hole near the livery barn, and became frightened by the whistlers banging against them. Mr. Denholm, grandfather of the little boy, who was in the path of the horses, made a rush to escape them, and fell down, but the horses did not touch him. The horses were captured near the station, and one was injured in the leg.

From Blairmore and Bellevue attended the harvest festival services in St. Albans' church on Sunday. The musical portion of the service was added to by a violin solo by Mr. W. J. Harris, with an accompaniment played by Mrs. M. Clifford. The church presented a harvest appearance with its decorations of vegetables, fruit and flowers, for which the rector thanked those ladies who had so kindly given of their time and those who had donated.

An Australian ex-sea captain travelling on a through train across Canada was ridiculous in his criticism of Canadian service cars, in which he said he was not permitted to purchase accommodations of the same car; and of the tally manner of Canadian ladies, whom he characterized as going Chinese by using forks so much at meals in place of knife and fork. "They'll be using chop sticks in a very few years," said he, "and forget entirely what a knife is for." And we always thought our wives and daughters knew how to eat.

Mrs. Dorothy L. Grant is acting as agent for The Journal in soliciting orders for personal greeting cards, and orders placed with her would be appreciated. She has a very fine variety at popular prices, and orders given now may be held till convenient date for delivery and payment.

The Journal office can fill your orders for commercial stationery.

USE RECOGNIZED WEEKLIES

After referring to various kinds of advertising during the past two years, an announcement has been made by many of the larger concerns in Canada that they will again use the better class weeklies, many of them securing exclusive contracts for advertising purposes in place of the free distributed circulars, tried out during the past two months, which have been discontinued. The advertising problems, coupled with a thorough distribution through the regular office channels, has proven that this form of advertising has been responsible for steady sales revenue.

ANNOUNCEMENT
Mr. Melville Anderson, of Anderson & McLean, sight specialists, Calgary, announces his next visit, to G. R. Powell's, Coleman, on

Tuesday, October 3
20 years experience and regular visits assure you of satisfaction in all optical work.

Ed. Ledieu The Store of Exceptional Values

THIS WEEK we offer a good line of first quality groceries and meats at prices which you will find enable you to save considerable on your weekly supplies.

— Specials —

Good only for Fri., Sat. and Mon., Sept. 29, 30 and Oct. 1

Sugar Crisp Corn Flakes, 3 pkts.	25c
King Oscar Sardines, 3 tins for	43c

Pork Leg, in piece, per pound	14c

SERVICE QUALITY LOW PRICES

Clareholm Creamery Butter, 2 pounds for 45c

Cooked Ham, per pound 35c

Fresh Pork Loin Roast, per lb 18c

Men Make The State

Picking up a copy of the Moose Jaw Times the other day, the writer's attention was drawn to an article entitled "Men Make Cities" which opened by quoting the following inspirational lines of an unknown poet taken from the September issue of The Rotarian:

Cities are what men make them,
What they demand that they shall be;
Slothful, silent, and sleeping,
Progressive, beautiful, free.
If the hearts of the builders are noble,
In one with the day and the need,
Then the world will know grandeur and greatness,
For so it was decreed.

These lines, it is stated, were inspired by the achievement of Atchison, Kansas, as told by Ed. W. Howe, editor of the Atchison Daily Globe. Atchison is one of the smaller cities, but in twelve years it has evolved from a bankrupt, tax-broke city—"slothful, silent and sleeping"—into one that is "progressive, beautiful, free" with its bonded debt cut 70 per cent, and even while this fine record was being made its tax rate was reduced by 35 per cent.

"How was it done? In 1920 a group of citizens, noting the seriousness of the situation, started a movement to save the city, a new idea took hold of the administration, expenses were cut, and plans formulated to enable the taxpayers to handle the load and reduce the bonded debt and the overhead, and the creditable record was not interrupted through three years of the hardest times ever known, largely because lost courage and confidence was restored.

The Rotarian magazine tells the story in an editorial challenge to Rotarians in every city to be up and doing for the welfare of their home town, to study its problems and to act. The Moose Jaw Times applies it directly to its town and declares the challenge comes at a time it is only too likely to Rotarians but to every member of every service club of Moose Jaw.

The writer of this column in passing the story along would make bold to still further enlarge the field of its application from city to town to the citizenship of every community, large or small, because it is just as true that men—and women—make rural communities and little villages as it is that they make cities. It is also true that in these days our rural communities, hamlets and villages are confronted with problems, which, considering their population and resources, are just as heavy and serious as those of the larger cities—perhaps even more so.

Furthermore, because of the very nature and extent of the world-wide depression which has developed, all communities, large and small, find themselves much in the same position. One cannot in their emergency turn to another because all are adversely affected, and while the willingness to assist may be there the ability to do so is lacking. So communities are thrown back on their resources to a greater extent than formerly.

Again, this has resulted in much purely voluntary work by individuals and organizations being restricted, leading to both individuals and communities turning to and relying upon the State to take over and assume their problems. The net result is a weakening of the spirit of the individual, a loss of courage and a loss of the development of habits of shorthandedness and a deterioration of initiative and enterprise. Instead of men adhering to the truth that they make cities and nations, thousands are adopting the false theory that cities and nations make men, and that, instead of it being the duty and responsibility of men to order their lives and make their communities, it is the duty and responsibility of the State to order the lives and control the actions and destinies of the individual, thus reverting the order of the citizens controlling and directing the State.

Observant men and women are more and more coming to the view that the time has arrived to call a halt to this increasing reliance upon the State, and to renew belief in the truth that, like the citizens of Atchison, Kansas, they must save themselves and their city by action on their own part; that instead of allowing their difficulties and problems to swamp and overcome them, they must overcome their problems and surmount their difficulties. It can be done. It has been done times without number by individuals and communities in the past.

Indeed, if it is not done both the individual and the community, large or small, faces ultimate disaster. The individual will find himself submerged and his individuality largely gone, while the community will end up in complete bankruptcy and the loss of its local freedom and autonomy.

On the other hand, if the men—and women—of a community, be it a small village or a large city, bestir themselves, face and study their problems, and proceed to grapple with them one by one, they will be surprised how much they can accomplish. It will mean the abandonment of existing policies of drifting with the adverse tides. It will mean the lopping off of this expenditure and that; it will mean the application of the most rigid economy in all public administration; it will involve a more active participation by the individual citizens in effecting community savings; it will necessitate community sacrifices for the time just as thousands of individuals have had to make individual sacrifices. But it will mean ultimate success both for the community and the individuals who contribute and make the community.

In a word, it means a return to the proper and sound conception—that men make cities, not cities make men. And in using the term cities the application is to all organized communities whether rural or urban, large or small.

Dairy For Prince Albert

Believing Prince Albert is bedded for better times, F. K. Glass, of Kerrobert, Saskatchewan, has given a glass dairy there for retail distribution of pasteurized milk and cream. He has acquired 1,300 acres near the city and built a barn to house 40 Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Possums are becoming so numerous in New Zealand that they are a menace.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, sunburn and other bowel troubles set in, immediate attention should be given and the discharge checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 88 years. It is rapid, reliable and effective in its action. A few doses in general all that is required to give relief.

Get it at your drug or general store; put up only by The T. M. Burns Co., Limited, Toronto, Ont.

Bath Tube From England

Most of the imported baths and bath tubs sold in Canada are made in England. Durah, a dairy there for retail distribution of pasteurized milk and cream, has acquired 1,300 acres near the city and built a barn to house 40 Holstein cattle he intends to bring from Kerrobert, where he now operates a dairy.

Chicago school teachers can't

believe that a century of progress has done

much of them.

British Railway Regulation

No-Smoking Order In Compartments To Be Enforced

In future all passenger coaches on the London, Midland and Scottish Railway will bear a distinctive label, "smoking" or non-smoking." About 9,000 vehicles, with a seating capacity of more than 1,000,000 will have to be dealt with. Work on this will commence before the change-over is complete.

"We have had many complaints," said an official, "about people smoking in non-smoking compartments. They take the view that as smoking is not definitely forbidden they may smoke if they wish to do so. When the new labels are affixed on one will be allowed to smoke in a non-smoking compartment, even if other passengers say they have no objection. Smoking is allowed in 75 per cent. of the coaches and it is not proposed to alter that proportion."

Other railway lines in the United Kingdom have carriages labelled in various ways, meant to indicate they are either for smokers or non-smokers.

CAST OFF UGLY FAT

Woman Loses 28 lbs. in 3 Months

"Three months ago," a woman writes, "I was persuaded to try Kruschen Salts to reduce my weight, and I have since lost 28 lbs. and still have 10 lbs. to go. Now I know that Kruschen Salts are different. In three weeks I lost 5 lbs., and I must say I feel like a different woman. I now lose 28 lbs. to date." (Mrs.) S.G.B.

If you are overweight, take one handful of Kruschen Salts in a glass of hot water before breakfast every morning. There will be no rapid or alarming loss of weight, but just a steady decrease of that fat, a fat which is unattractive and unsightly. Kruschen is a scientific mixture of six mineral salts found in the waters of those European spas that have been used by generations of overgrown people to reduce weight.

Rising Tide Of Fascism

Warning Is Sounded By Secretary Of Workers' League

Warning against the "rising tide of Fascism" as exemplified by the Blue Shirts of Canada, was sounded by J. C. Wilson, of Winnipeg, at an open meeting of returned soldiers in Windsor, Ont.

Wilson urged the slogan of the Blue Shirts is "Join us and get a job," but that does not amount to a hill of beans," Mr. Wilson said. "In Winnipeg we formed the Old Contemptibles and had the same slogan.

The job offered us was police duty during a strike, a job now filled by 62 members of the Canadian Legion.

"There is no job for them except as storm troops for a Fascist government. That is their role, the same role as Fascists in Vancouver, strong-arm squad of Winnipeg, and Steel Hickets of Montreal.

"The time has come when you, as your economic needs, as the only affiliations, must unite and fight for your economic needs as the only effective weapon to combat the rising tide of Fascism and possible war in six months."

Pains After Eating? Try This!

Pains after eating are generally due to an excess of acid in the stomach that forms gas and causes belching, flatulence, and indigestion. Bismarck Magnesia taken after meals will give such quick and pleasing relief you will be surprised.

Stomach Magnesia is fine for ordinary acid stomach conditions. It should be taken every home. It works.

Forsaken Northern Country

Trapper Has Lived In Sub-Arctic For Many Years

The far north country is a good place for a man with a family, who is "getting up" in years, to get out of.

At this heat is the opinion of T. W. "Flynn" Harris, and he should know, for he's been wandering around up there since 1881.

Trader, trapper, North West Mounted Policeman, wood-chopper and Indian Agent, for 20 years, has had his home in the sub-Arctic. Now he is in Edmonton, retired by the government from his position as Indian Agent, and he's going to Cold Lake to settle down.

Belgium has only 155,000 unemployed.

South Shields, England, is building 142 houses for the aged.

Chains Fastest Plane

That his plane is faster than any other passenger-carrying type is the claim of the inventor of a new machine in Italy, having the body in a cylindrical enclosure, through which currents of air pass to supply the propelling power.

Scotland's potato crop this year was so large that the digging gave work to hundreds of unemployed.

Powerful Flashlight for POKER HANDS!

ONLY Four complete sets of poker hands will secure you this handy flashlight (completes with batteries). Useful in the car or in the house and but one of the many valuable gifts given in exchange for Turret Fine Cuts.

Sun ripened mellowness... rich aroma... extra satisfying flavor. That's the Quality you want in cigarette tobacco and that's the Quality you get in every package of Turret Fine Cut. And there's genuine economy too. You can roll at least 50 cigarettes from a 20¢ package.

TURRET FINE CUT CIGARETTE TOBACCO

SAVE THE POKER HANDS

Had Wet Landing

Passenger On Amphibian 'Plane Stepped Out Into Water

The pilot of a big amphibian plane coming toward New York one night recently found himself in a nice fog which he thought would be pretty sure later. According to instructions, he landed at an outlying city and suggested that his passengers continue by rail. They all did, except one gentleman who said he was in a mighty hurry and would take a chance if the plane was going on. The pilot was going on, and let him stay. The fog got worse, but the passengers were not worried, and the plane had brought the amphibian down on the water instead of the field. They fished the gentleman out and dried him off and he hurried back and found him deep in a magazine. He read right on until the plane had come down and stopped. Then, to the pilot's and the co-pilot's horror, he took up his suitcase, opened the door, and jumped nimbly out. It would have been all right but for the fact that, in view of the weather, the pilot had brought the amphibian down on the water instead of the field. They fished the gentleman out and dried him off and he hurried to town—New York.

Five members of the party, A. Stephenson, who was formerly with the Wilkins expedition in Greenland, P. A. Shepherd, R. Morgans, W. A. Grinstead and J. E. Kennedy arrived in a MacKenzie Airways aeroplane piloted by Matt Berry. Dr. J. M. Stagg, leader of the expedition, had come down and stopped. Then, to the pilot's and the co-pilot's horror, he took up his suitcase, opened the door, and jumped nimbly out.

It would have been all right but for the fact that, in view of the weather, the pilot had brought the amphibian down on the water instead of the field. They fished the gentleman out and dried him off and he hurried to town—New York.

Trying Something New

Rolling Across Atlantic In "Gyroboat" Is Plan Of Two Italians

Two Italians may attempt to cross the Atlantic in a barrel-like craft propelled solely by rolling. The pilot, Captain M. Caminiti and his mechanic, Signor Rametta. The vessel, called a "Gyroboat," is a kind of buoy in the shape of a barrel with a revolving cable which gives it its speed. It is completely closed and will hold several hundred people. According to word from Palermo, the inventors completed their first trial by crossing the Straits of Messina in less than an hour. They made their "ship" roll simply by their own movements inside the barrel. The inventors intend to propel their vessel down the coast to Catania and there to stay while they perfect it. They claim they will be able to cross the Atlantic in it at "stupendous speed."

CREAMED CELERY AND GREEN PEPPER

One half and cups celery (cut in one-inch pieces); 1 green pepper; 3 tablespoons butter; 3 tablespoons flour; 1/2 teaspoon salt; 1/4 teaspoon pepper; 1/2 cup evaporated milk; 1/2 cup water; 6 slices toast.

Cook celery until tender. Drain and mix with sliced green pepper. Melt butter in double boiler. Add flour and seasonings. Blend thoroughly. Add gradually evaporated milk and water, stirring constantly until mixture thickens. Cover and cook ten minutes longer in double boiler, stirring occasionally. Add celery and green pepper. Serve on toast if desired. Serves six.

Investigated Northern Lights

Scientists Have Spent Fifteen Months At Fort Rae

Aurora borealis flash across the northern sky some 60 miles above the earth, according to calculations made by members of the British polar year expedition who arrived at Edmonton by airplane after 15 months spent at Fort Rae, North West Territories, studying weather conditions in the far north.

Five members of the party, A. Stephenson, who was formerly with the Wilkins expedition in Greenland, P. A. Shepherd, R. Morgans, W. A. Grinstead and J. E. Kennedy arrived in a MacKenzie Airways aeroplane piloted by Matt Berry. Dr. J. M. Stagg, leader of the expedition, had come down and stopped. Then, to the pilot's and the co-pilot's horror, he took up his suitcase, opened the door, and jumped nimbly out.

It would have been all right but for the fact that, in view of the weather, the pilot had brought the amphibian down on the water instead of the field. They fished the gentleman out and dried him off and he hurried to town—New York.

Physical volume of business, industrial production, manufacturing in the Dominion, along with export trade started on an upward trend in March, improving steadily in following months. Canada's trade "low" was reached in January, February.

Although officials of the Canadian Manufacturers' Association would not express an opinion as to whether the increase in Canada's export trade as reported by the Department of National Revenue at Ottawa, was due to influence of the N.R.A., Dominion statistics indicate it was not a major influence.

Physical volume of business, industrial production, manufacturing in the Dominion, along with export trade started on an upward trend in March, improving steadily in following months. Canada's trade "low" was reached in January, February.

Although some credit is given to the National Recovery Act by manufacturers at Toronto, for improved conditions, owing to the influence of conditions in America, Canadian trade, it is considered improvement is principally due to a general upswing in world conditions.

Better Conditions Due To General Upswing

Improved Business in Canada Not Credited Wholly to N.R.A.

Figures issued by the Dominion Bureau of Statistics indicate business conditions in Canada have progressively improved since March of this year, before the National Recovery Act was passed in the United States.

Although officials of the Canadian Manufacturers' Association would not express an opinion as to whether the increase in Canada's export trade as reported by the Department of National Revenue at Ottawa, was due to influence of the N.R.A., Dominion statistics indicate it was not a major influence.

More Than One China

Not Counting Manchuria Writer States There Are At Least Five

O. M. Green in an article in the Nineteenth Century and After says: everyone returning from the Far East is familiar with the fatuous question, "Well, and when is China going to settle down?" The only possible answer is, "When China do you mean?" Not counting Manchuria, there are at least five China's: Canton in the South, Nanking in the Centre; the North (is generally fluid state; very difficult to define): the huge western province of Szechuan and the Com-

France Is Worried Over Danger From The Hitler Menace

Paris, France.—A show-down on disarmament is looked for by France at the fourth coming disarmament conference at Geneva.

The "Hitler menace," as officials publicly describe the present German regime, makes talk of disarmament at this juncture in European affairs a real danger, they say.

Joseph Paul Boncour, mild-mannered minister of foreign affairs, will head a delegation to Geneva which will argue this way.

Officials as well as the press believe that the gravity of the Austro-German dispute and acknowledged territorial ambitions of the German Nazi Government have opened the eyes of all of Germany's neighbors, and that at that time since 1918 has the future of Europe been more in doubt.

The French want to keep their gigantic war machines acquired as a result of the war and they are going to ask the world at Geneva:

1. To stabilize arms, guns and equipment at their present levels.

2. To set up an international arms control system to keep a sharp eye on the moves of all countries and to prevent deep into budgetary expenditures for military purposes.

Unwillingness to give up any major part of the present war defense plant is general, until after the control plan has proved its effectiveness as a check upon further agreement.

Public opinion is united for the first time since the war on the necessity for vigilance.

The Austro-German situation appears to French eyes to hold the seeds of another general European war. The important newspaper *Le Temps* recently put this view into bold relief.

The French are counting on support from Great Britain and the United States. Faced with French proposals for limiting armaments and for a control scheme, the Germans are expected to re-state their contention that they cannot accept any schemes whatsoever until they have been accorded equality of rights, including equality of arms.

Record Price For Beef
Springfield, Mass.—A new record price for beef steak on the hoof was paid at the baby beef auction at the Eastern States exposition, when the grand champion owned by Therese Grassi, of Pine Plains, N.Y., brought \$11.15 per pound at auction. This compares with a previous record of \$8.30 paid at the East St. Louis Fair last year.

Morphine Case
Victoria, B.C.—Sacks of dried poppy heads were stacked in the court room as material evidence as the trial of a Hindu named Beru on a charge of possessing morphine began. Royal Canadian Mounted Police recently seized a truckload of poppy heads from city and Saanich lots and this was the first case arising out of the seizure. The case was adjourned.

American Section At Geneva
Geneva, Switzerland.—The American Minster to Switzerland, Hugh R. Wilson, practically living in Geneva, and with five members of the consular staff headed by Prentiss B. Gilbert, devoting themselves exclusively to League of Nations questions, the League decided to inaugurate a special American section.

Political Tension Shown At Opening Of League Of Nations Assembly

Geneva, Switzerland.—The state of political tension existing in Europe was exemplified as Swiss detectives from many cities began mobilizing to reinforce Geneva police on the eve of the League of Nations assembly and council meetings and the disarmament conference.

The purpose was said to be primarily to protect the lives of German delegates.

Opening of the conference begins a period of intense activity in the league. That the very peace of Europe is the stake of negotiations about to commence was the consensus of opinion.

On one side are France and allied nations apparently ready to limit but not to reduce armaments, at least

Northern Air Route

Winnipeg Expected To Be In Import-ant Position In Trans-Atlantic Service

Ottawa, Ont.—While it is too soon to predict the role that Winnipeg will be played in the trans-Atlantic air service, it is learned here on official authority that negotiations for trans-Atlantic air service are not rapidly reaching a final stage. The three carriers that will co-operate in this venture are the United States, Canada and Great Britain and the route will be north across Labrador or Hudson Bay to Greenland, thence to Iceland and to the British Isles.

The negotiations are now proceeding at London, where the Canadian government and, probably, the Canadian Airways, are represented. The United States participant is the Pan-American Airways, Limited, and the British negotiator is the British Airways.

An announcement of the plans for an early trans-Atlantic service is expected within six weeks.

It is not known here if the plans will call for a branch line from Chicago to Winnipeg and thence north-east to tap the main line, but it is said that this possibility is being considered.

Canada's New Loan

Will Be Used Chiefly For Refunding Maturing Bonds

Ottawa, Ont.—The Dominion government loan will be "substantially less than \$250,000,000," according to a high official of the finance department. It will be "essentially a refunding loan and a modest financial transaction in every sense of the word," the official added.

The date and interest rate of the new issue has not yet been fixed. Officials are confident the public will take the opportunity to convert their maturing bonds into new long-term securities at a slightly lowered interest rate.

The loan is chiefly for the purpose of refunding the \$169,000,000 worth of victory bonds issued on November 1, 1918, in a bank loan of some \$35,000,000 maturing at the same time. The total issue will be only slightly in excess of these requirements.

May Recall Film Stars

German Members Of Hollywood May Have To Return To Germany

Hollywood, Calif.—German members of the film colony regarded with concern a report from Berlin that a move was on foot to demand their return to the fatherland to participate in "cultural rebirth" of the nation. Marlene Dietrich, Dorothy Weick, Ernst Lubitsch and many other Hollywood celebrities would be affected by the order now being discussed by the Film Reichsfachschafft, the controlling motion picture organization there, and said to be favored by Adolf Hitler.

Boy Takes Long Journey

Edmonton, Alberta—Adopted by his aunt and uncle, Mr. and Mrs. R. A. Blend of Edmonton, eighteen-year-old Walter Houghton, travelled alone from Cape Town, South Africa, to the Alberta capital after his mother and father had died. The boy said he enjoyed the 13,000 mile trip and is eager to see his first snowfall.

Favors Tariff Cut

Controlled Inflation And Lower Tariffs Favored By U.S. Official

Chicago.—Secretary of Agriculture Henry Wallace told the United States Grain Dealers' Association that he still favors controlled inflation.

Along with this he criticized high tariff psychology and warned that attempts to fix prices "without control of production is doomed to failure."

"Most of the price fixers are also inflationists," he said. "If the purchasing power of farm products does not improve during the next three months, the price fixers and inflationists will have great power in congress this winter and there will be passed legislation which will make the Agricultural Adjustment Act seem extraordinarily conservative."

Secretary Wallace said he looked for "definitely higher agricultural prices" within a few months, but that he felt it important to insist coming to a stand if "we are not prepared to meet the peril produced by the following forces." He said these were:

"First, America is a creditor nation to the tune of \$1,000,000,000 annually, but as a nation she has a debtor psychology. Second, the American people are still essentially high tariff in their attitude. Third, the American people are disillusioned about lending money abroad, and it will be difficult to float foreign loans in their present temper."

"These three forces mean that for the time being our people are profoundly nationalistic, and that as long as they are operating on this basis, we should go at it whole-heartedly to put our internal economy on a nationalistic basis, reducing our crop and acreage by 40,000,000 acres."

"If we persist in a half-way tariff policy, we will be compelled to modify it and at the same time collect in full the money which is owed us abroad, and refuse to lend money abroad, it will take superhuman efforts on the part of the agricultural adjustment administration year after year to keep down our acreage to a point which will afford a living price to American farmers."

No More Free Gas

Say Joy Riders From Alberta Obtaining Free Gas From B.C.

Victoria, B.C.—Joy riders from Alberta have been obtaining free gasoline in British Columbia, according to Hon. W. M. Dennes, British Columbia Minister of Labor, just returned from a trip to the Okanagan and Kootenay districts.

Mr. Dennes said families were driving across the inter-provincial line in old cars and asking for free meals and a supply of gas to move onward. Most municipalities on the road condoned them, their wives with gas instead of harboring them.

The minister said word apparently spread to the prairies and increased the flow of ancient cars from Alberta into the southern section of the province.

Mr. Dennes issued orders no more "cultural rebirth" of the nation.

Marlene Dietrich, Dorothy Weick, Ernst Lubitsch and many other Hollywood celebrities would be affected by the order now being discussed by the Film Reichsfachschafft, the controlling motion picture organization there, and said to be favored by Adolf Hitler.

NEW DEPUTY MINISTER

Dr. R. E. Wodehouse, Executive Secretary of the Canadian Tuberculosis Association, who has been appointed Deputy Minister of Pensions and National Health for the Domionion.

Study Cosmic Rays

U.S. Army Plane Carries Instruments Four Miles Above Earth

Riverside, California.—Using army bombing planes to carry scientific instruments, mostly four miles above the earth, Dr. Robert Millikan, noted Pasadena scientist, and his assistant, Dr. Victor Neher, have resumed their efforts to learn more about the cosmic rays.

An army pilot, garbed in 25 pounds of winter flying clothes and equipped with oxygen breathing facilities which he is compelled to use about 15,000 feet, has flown the instruments for the American Federation of Labor.

The demands to be made upon the president and the recovery administration, non-compliance with which would be accepted as grounds for calling the strike, were:

"If we persist in a half-way tariff policy, we will be compelled to modify it and at the same time collect in full the money which is owed us abroad, and refuse to lend money abroad, it will take superhuman efforts on the part of the agricultural adjustment administration year after year to keep down our acreage by 40,000,000 acres."

NOTES AND COMMENTS

APPROACHING winter reminds the charitably disposed that additional help for the needy will be required. Many are suffering distress through force of circumstances over which they have no control, and many men willing to work cannot find jobs. Governments cannot do everything to relieve distress, but individual help can accomplish much in making life a little brighter for the giver as well as the receiver.

LAST winter the miners' union as well as those outside of the mine-workers ranks contributed towards a community fund and it is not too early to re-organize so that some provision may be made to relieve distress which winter always brings. A little help from all who can practice self-denial will cheer many a heart.

MAJOR J. C. ROPER, M. C., speaking at the sixth biennial conference of the British Empire Service League in London, Eng., in July, made a splendid appeal on behalf of ex-service men who are unemployed. In the course of a lengthy address, he stated:

"I assert that, above all things, the men who served the Empire in time of war and without a shadow of a doubt saved it, and all it has and holds dear from the ruthless heel of a conquering foe, have at least the right, the unquestionable, undeniable, paramount right, to be permitted to earn a decent livelihood in the Empire which they served and saved. What these men require and what they have a right to have is work, so that by their own industry they may carry on as they did before the war, as independent self-respecting citizens of our country. I say that it is to the shame of all of us that even one single ex-Service man in any part of the Empire, able and willing to work, is out of a job."

THE whole scheme of things seems topsy-turvy. While people are in need of ordinary necessities, curtailed production is urged and in some parts of the United States cotton crops are being destroyed. Man in his wisdom brought production to higher efficiency than ever experienced, yet has been unable to devise a plan for distribution so that none may go hungry. Individual help to those less fortunate must be practiced more fully to alleviate the problems confronting the world. Success is no longer judged by accumulation of wealth, but by following the teachings of Jesus Christ and the example of the Good Samaritan. During the war we denied ourselves sugar and other things in order that men on the war fronts should get their share. How many to day are prepared to practice the same habits of self-denial in order that the great offensive against the depression may be effective? Each can do his, or her part.

DRIVING an automobile whilst under the influence of liquor should be made a criminal offence. Taking away a man's driving license is not sufficiently effective to curb this menace on the highways. Most accidents are the result of carelessness or taking chances. A man under the influence of even a small quantity of intoxicating liquor imagines he can do things which he would not attempt if strictly sober. Lives have been wantonly sacrificed to such an extent that public opinion has become aroused to the danger of mixing gasoline and booze on the highways.

LAST Sunday the writer attended a harvest thanksgiving service. That well known hymn commencing with "We plough the fields and scatter the good seed o'er the land" was sung, and the thought occurred that many have no cause for rejoicing, because there is no bountiful harvest for them. The farmer whose crop was devoured by grasshoppers or failed to mature because of drought would feel it a mockery to sing a harvest hymn, especially if he had experienced such conditions for several years in succession. Truly it is because of faith that better times will follow that he sows in the spring-time, or that he blindly accepts the dictum that seven lean years follow several prosperous years. Yet it seems a long time since many farmers experienced any prosperous years. But the darkest and the coldest hour is just before the dawn. Just keep hanging on, if you can! Persistence and courage will overcome difficulties, provided you do not die in the attempt.

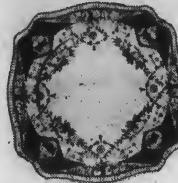

W. R. HOWSON, leader of the Liberal party in the provincial house, not only espouses his cause vigorously in public meetings, but is equally at home in the church pulpit, judging from his address at Cardston temple. Even newspaper editors occasionally occupy pulpits, for Hugh Savage, of the Cowichan Leader at Duncan, Vancouver Island, recently spoke in Christ Church cathedral, Victoria, on his experiences of the Oxford Group.

"A little humor now and then
Is relished by the wisest men."

This is not intended to be grim humor, though the words came to mind after spending an hour or more writing this "kolyum."

Unjustified Pessimism Is Chief Trouble Of Wheat Market, In Opinion Of Western Economist

Unjustified pessimism is the chief immediate trouble of the wheat market, according to Dr. W. W. Swanson, head of the Department of Economics in the University of Saskatchewan, who was in Montreal.

The importing countries of Europe have not yet reached their pre-war acreage in wheat, Dr. Swanson claimed, and have considerably reduced their growing of rye. The lessening of imports in Europe was due to no increase in acreage, but to extremely high yields this year and last year. This, he suggested, could not be taken as a permanent factor.

Dr. Swanson drew attention to the statement of B. W. Snow, American wheat statistician, that current United States government estimates of wheat stocks in that country were about 150,000,000 bushels too high and that there was actually no surplus when there in excess of domestic requirements and a small carry-over for safety.

As to the "blue eagle" campaign in the United States, Dr. Swanson declined comment other than to say he had never seen any case where the people had avoided the penalty of past extravagance by refusing to admit it existed.

He had been a witness before the royal commission on banking and currency at Saskatoon and consequently declined to comment on the commission beyond an expression of admiration for the manner in which Canadian banks had met the world economic crisis and his opinion that the personnel of the royal commission was a complete guarantee its report would be constructive.

Problems Of Dairymen

Want Eastern Canada To Export Fair Amounts Of Butter

Working through the National Dairy Council, the three prairie provinces have made united efforts to induce manufacturers in eastern Canada to export a fair quota of butter. That effort started right after a Canadian butter surplus of 9,000,000 pounds was announced August 1. To this date the western provinces have received no indication that any butter would be shipped to the old country from the east, according to P. E. Reed, Saskatchewan Dairy Commissioner and Secretary of the Western Dairy Association.

Mr. Reed said Saskatchewan had shipped slightly more than 1,000,000 pounds to the market overseas. That business, he declared was done at a net loss, the loss being heavier in the earlier shipments than the later ones, the result of better prices obtaining in England.

Model Of Tower Bridge

London's Famous Structure Reproduced By Farmer With Crude Tools

A model of London's famous Tower Bridge, eight feet long, two feet high and 14 inches wide, has been made from wooden boxes of the packing or cigar variety by B. O. Broomhead, farmer of Lydden, Saskatchewan.

It took two winters of steady application to the job and three-and-one-half weeks to paint it.

Ties tools were a small plane, jack-knife, razor blades, fret saw, scrap glass and sandpaper. Gopher tails were used for paint brushes.

Although he has never seen the structure he set to work and built it for his son. He has not seen the bridge, as it stands in London, either.

A Strange Plant

Bursts Into Life After Sleeping For Ten Years

Horticulturists were surprised and puzzled recently at the behavior of a South African "Cycads" plant, which suddenly burst into life at the Royal Botanical Gardens in London, England, after sleeping for 10 years.

The plant was found in the South African section of the Wembley exhibition in 1923. It was then a stock and was taken to the botanical gardens, where it slept until last March when suddenly leaves sprouted from the trunk and within a week or two it was covered with beautiful foliage.

Dogs are the most affectionate of animals—the only animals that prefer the company of man to their own kind. Cats can't be trusted a second.

Caller: "Good morning, Mrs. Smith. I believe you sent for a locksmith?"

Mrs. Smith: "Yes, come in. We've lost the key of the tin of sardines."

Consumer Wants Good Honey

Demands Same High Standard As In Other Foods

In the case of a food product the producer owes to the consumer extreme care in preparation of that product for the market to see that it is wholesome, clean, attractively packed and equal to the standards under which it is advertised and labeled. The honey producer had things very much his own way until a few years ago because demand exceeded supply and honey sold quite readily without too much fussing around with it. Today, however, conditions are somewhat different. More honest, better produced competition has become keener and the consuming public has become more discriminating in its choice. The consumer has been educated to buy goods graded and uniform standards and is demanding similar standards for honey and these demands cannot be ignored. The consumer is willing to pay for quality produce and as he has the final say as to what he shall buy, his wants must be considered. The producer who fails to recognize this fact might just as well change his profession first as last—C. B. Gooderham, Dominion Apiarist.

846

AN IMPORTANT UNDIE ENSEMBLE THAT FITS THIS FIGURE—GIVES SLENDER APPEARANCE

Here's a pattern that includes pants to match your slip. Think of the time you have so often wasted trying to buy a slip and pants that match.

You can make this darling set in a simple morning. It's simplicity itself. It's surprising how little it will cost you.

The slip, cut on princess lines—a few seams to be joined—finishes the pants with lace. The pants have a fitted yoke and circular legs, not too full. The edges are trimmed with narrow lace to match the lace on the slip.

It's very effective in pale pink crepe silk with lace lace. The edges may also be finished with bias binding.

Style No. 846 is designed in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, WORLD HAPPENINGS
BRIEFLY TOLD

An annual license of \$100 will be levied on truckers taking large quantities of produce into Calgary from British Columbia and selling direct to retailers.

Col. and Mrs. Charles Lindbergh visited the colonel's cousin in Barry and planned to continue a flight, which may take them to Soviet Russia. Barry is in southern Sweden.

An aerial motorcycle, which can ascend from and alight on a tennis lawn or even the flat roof of a large building, has been making trial flights at Hanworth, Middlesex, England.

Robert Augustus Cheshire, the man who invented vaseline, is dead at the age of 96. He succumbed after a short illness. For 50 years he had manufactured the product he invented.

Spillers, Limited, has decided to close down its Calgary flour mill due to falling off of export trade during the last year, according to J. G. Christ, of Vancouver, general manager.

After a dramatic race in response to repeated SOS calls, the London vessel, "British Hope," reached an Hungarian cargo steamer, the "Magyar," and rescued the entire crew as the ship was sinking.

One of the richest wheat producing areas of southern Alberta, the Macleod and Aldersley districts, estimate this season's yield at about 4,000,000 bushels compared to last year's figure of 12,000,000.

Death of Sir Alexander Clegg, 85 prominent British industrialist, was reported from London England. Sir Alexander was president of Barry and Staines Linoleum (Canada) Limited, Farnham, Que.

The Toronto central presbytery of the United Church of Canada, unanimously passed a motion presented by Rev. Dr. George C. Pidgeon requesting an investigation into conditions in federal penitentiaries.

School Guide Now Available

Book on School Administration As Guide To Trustees And Teachers

Trustees, teachers and all persons concerned with education will be interested in a book entitled "School Administration" by H. Ball, formerly Deputy Minister of Education for Saskatchewan and N. L. Reid, Assistant Deputy Minister, just published by H. J. Galt & Co., Ltd., Toronto. The book is the result of a long study, recognized by those concerned with school administration. As its name implies, it is designed as a guide for trustees and school officials.

At the same time, anyone will find it a reliable source of information on all matters of school law. The author is a resident of Saskatchewan and are family not only with the school law and its interpretation but with the problems of trustees, teachers and taxpayers and these are fully dealt with.

The book contains, in all, sixteen chapters on such matters as the yearly history and control of education in the Province of Saskatchewan, the development of our present educational system, school organization, school elections, qualifications for trustees, duties of trustees and school officials, school superintendent's responsibilities, duties of the teacher, etc. The book discusses, by means of question and answer, definite problems of trustees and school officials.

There are some hundreds of such questions relating to calculation of teacher's salary, expulsion of pupils, corporal punishment, power of trustee, rights of taxpayers, parents, etc.

Over fifty of the important school cases that have been adjudicated in the courts are described.

The book contains the educational provisions of The British North America Act, The North West Territories Act, The Saskatchewan Act, and The Provincial Lands Act of 1931, as well as the development of the law relating to separate schools and religious instruction. A complete index makes it easy to look up any point.

The book is a valuable aid to the aims and objectives of the Curriculum by Dr. John S. Huff, Commissioner of Education. The volume should be invaluable to those charged with the administration of schools.

While it has been written as a Saskatchewan edition, much of its content will apply in any school system.

Has Ruled Thirty-Five Years

Holland celebrated on Sept. 10 the 35th anniversary of Queen Wilhelmina's accession to the throne. The main feature of the celebration was a great national demonstration at the stadium where 10,000 members of the royal family, government officials and foreign diplomats. There were 35,000 spectators.

You can fool some of the people all of the time, and all of the people some of the time, and the rest of the time somebody else will fool you.

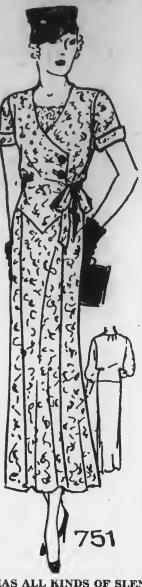

There is an angling club in Surrey, England, for bachelor girls only. Now and then a member lands some poor fish and has to resign.

Employment in Australia is 25 per cent greater than a year ago.

Winnipeg Newspaper Union

By Ruth Rogers

IT HAS ALL KINDS OF SLENDERIZING QUALITIES AND UNBOUNDED CHIC

While it is youthful enough for the younger woman, it can also be worn by the matron.

The slender woman is actually pictured was carried out in a black and white crepe silk print with a dainty vest of white embroidery mouseline de sole. The short sleeves were black bone.

The slender woman is also shown with its partial tied girdle, is effective. The pointed lower seaming tends much to lessen any breadth. The pattern is also given for length.

Style No. 751, is designed for sizes 36, 38, 40, 42, 44, 46, 48 and 50 inches bust.

Plain crepe silk in grey or beige would be charming for this model. Size 36 requires 3 1/2 yards 39 inches with 1/2 yard 9-inch lace.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Fighting Cancer Menace

Ultra-Violet Light Can Readily Detect Malignant Growth

Even the most minute growth of cancer can be detected readily by the yellow glow it emits under ultra-violet light. Dr. Daniel Kobak, of Chicago reported to the American Congress of Physical Therapy.

He voiced a hope that through the ultra-violet agency cancer's deadliness may be minimized—first by sur-
gical diagnosis in early stages, then by assurance, upon surgical operation, that every vestige of the cancerous tissue has been adjudicated in the courts are described.

The book contains the educational provisions of The British North America Act, The North West Territories Act, The Saskatchewan Act, and The Provincial Lands Act of 1931, as well as the development of the law relating to separate schools and religious instruction. A complete index makes it easy to look up any point.

The book is a valuable aid to the aims and objectives of the Curriculum by Dr. John S. Huff, Commissioner of Education. The volume should be invaluable to those charged with the administration of schools.

Grasshoppers!

Fall Work Which May Be Done This Year Preparatory To Next Year's Campaign

The emergency work for grasshopper control in Saskatchewan was headed jointly by the Provincial and Dominion Departments of Agriculture. It includes the recommendation of lines of work which should result in very material reducing the number of young grasshoppers hatched next spring, and so reduce the amount of labour and the cost of next year's campaign. It is accepted with the fullest confidence that where the recommended program is fully carried through, not only will grasshoppers be kept at bay with splendid effectiveness but the cost of doing so will be only a fraction of the loss which the pest will cause if no control is attempted, or only haphazard methods used.

The cultural recommendations include:

1. **Seed Only on Summer-Away.** In so far as this can possibly be done, this is especially important in heavily infested areas. Since grasshoppers do not lay their eggs in fallow land (unless it is very weedy), crop seed in fallow land should be protected from invasion from adjoining roadsides or infested stubble fields. Such protection can be given effectively, and cheaply, by using poisoned baits. The campaign will be rendered immensely less difficult and costly, and more certain, in any area where crops are sown only on fallow land.

2. **Complete All Seeding Early, at least moderately so.** Avoid late seeding of any kind, because during grasshopper infestation, a crop will give a worthwhile yield only if it has merely served as breeding places for further increase of the pest.

3. **Cultivate Early and Often.** Crops as far as possible should be cultivated as early as possible, as far as possible, and as often as possible.

4. **Keep Guard-Strips.** If the land is heavily infested, a strip of land, as wide as possible, should be set aside to protect the crop.

5. **Poison the Trap-Strips.** As soon as they have been harrowed to the three-rod width, choose the first strip of land for effective poisoning. Additional hatching will be prevented if the strips become heavily re-infested. It is a mistake to delay hatching too long, as the hoppers may bolt to the trap-strip, as they become too crowded in the maturity.

6. **Keep Guard-Strips.** When "strip-farming" is being done it is particularly important to keep guard-strips to protect the crop.

7. **Keep Guard-Strips.** If the land is heavily infested, a strip of land, as wide as possible, should be set aside to protect the crop.

8. **Keep Guard-Strips.** If the land is heavily infested, a strip of land, as wide as possible, should be set aside to protect the crop.

G. G. Coote Not Speaking Here

Reports that G. G. Coote, M.P. for Macleod federal constituency, was to speak here on Sept 28, indicate that though efforts were made by Mr. Coote on a recent visit here to arrange a meeting, a committee of the local miners union decided that as there was no arrangement made for heating the Opera house, they would not proceed further at the present. Many had hoped to hear Mr. Coote, and possibly arrangements may be made for another date on which Mr. Coote will address the electors of the Crows Nest Pass.

court, report of which is given elsewhere in this issue.

Five teachers were engaged at two months each to fill John McDonald's place, who has been given a year's leave to attend Mount Royal college, Calgary. Those engaged are Gwen Brown, J. Ondrus, Pearl McDonald, Emma Antel and Lena Godfrey.

The proposal to complete the fencing of Central school grounds was discussed, and information concerning costs will be considered at the next meeting of the board.

Sale of Work

The Women's Guild of St. Albin's will hold their annual Sale of Work on Saturday, Dec 8, in the Parish hall.

The monthly meeting of the Coleman Girl Guides Association will be held in St. Albin's parish hall on Tues., Oct. 8. All members please be present.

President Beatty, C.P.R., passed over the Crows Nest division going east to-day, on his return from a tour of inspection over western lines to Vancouver.

Bob Glendinning came off second best when he attempted to crank a Chevrolet car. It back fired and broke his arm, causing a nasty fracture.

24 additional men came from Calgary to the airport camp on Wednesday, bringing the strength up to 107.

Myrtle Nelson, Jennie Dickson and Evelyn Higginbotham have completed their training courses at Kootenay general hospital, Nelson, and have returned to their homes here.

BRING IN YOUR COUPONS!

The presentation of five coupons is due in The Journal on August 31, Sept. 7, 14, 21 and 28, entitles the holder to a credit of half the cost of one dozen personal greeting cards valued at \$2.00, from our regular greeting card samples. These coupons may be turned in at any time and the order will be held for delivery at the time required by the customer. If customer desires cards of higher value, the credit of \$1.00 will be allowed to apply, but the coupons of the dates stated must in all cases accompany the order. No deviation from this can be allowed.

School Board Meeting

A meeting was held on Sept. 5, J. M. Allan, chairman, A. Reid, R. Sudworth and G. Hope, trustees, present.

A special meeting and court of revision was also held, at which five appeals were heard. All were sustained with the exception of one reduction made to an applicant from East Coleman, whose property had decreased in value owing to removal of a portion of the building.

International Coal & Coke Co. carried their appeal to the district
